

EUREL, the Convention of National Associations of Electrical Engineers of Europe, invites you to its next **EUREL eMeetup:**

**Topic: EU Sustainable Products Initiative – Focus on the contribution of standardization to the Digital Product Passport**

**When:** 8 December 2022 from 14h00 to 15h30 (CET)

**Where:** Online (zoom)

[Register](#)

<https://www.eurel.org/en/events/event-detailpage?id=21567&type=vde%7Cvdb>

The CENELEC President will open the event, followed by a keynote speech given by Dr. Jens Gayko, (DKE, Chair of the CEN-CENELEC Smart Manufacturing Coordination Group) introducing to the concept of Digital Product Passport and showing how standardization can contribute and is essential for the roll-out of DPPs. He will then be joined in the panel by Mrs. Carolynn Bernier from LIST, Mrs Margaux Le Gallou (ECOS) and Mrs Constant Kohler (CEN-CENELEC) for a discussion around among others: What is the state of play of DPP in the EU and recommendations for the development of standards for DPP? How can standardization concretely help achieving DPP? Which challenges are there for standardizers and companies? What are the next steps and how can you get involved?

**This event is open to the wide public and can be shared to your contacts. Please spread this information as far as possible.**

Kind Regards

Markus B. Jaeger

EUREL Chairman Board of Directors  
Global Head of Political Affairs Technology Organisation VDE Group  
VDE Association for Electrical, Electronic and Information Technologies
